### Columbia Nutritional Service Secures cGMP with ProcessPro<sup>®</sup> Premier ERP

St. Cloud, Minn., December 20, 2011 – Columbia Nutritional Service, Inc., a fast growing nutraceutical company in Vancouver, WA, selected ProcessPro<sup>®</sup> Premier ERP software. Columbia Nutritional offers a full range of nutraceutical services including customized formulation, contract dietary supplement manufacturing and packaging, and analytical laboratory capabilities to domestic and foreign customers.

Columbia Nutritional Service is an FDA registered facility, and complies with 21 CFR, NSF, and Kosher certification regulations and guidelines.

“ProcessPro<sup>®</sup> Premier ERP provides companies with the tools to adhere to FDA, cGMP, and NSF regulations as well as the 21 CFR part 111 regulations specific to contract dietary supplement manufacturers,” says Jake Halverson, ProcessPro Business Development Representative. “Compliance capability was a key component to this partnership.”

Additionally, Columbia Nutritional Service, Inc. needed an ERP solution that could grow along with them. It was also important that Columbia Nutritional improve lot tracking, and simplify and increase the speed of the manufacturing process and lead times, along with increased visibility and accuracy in their warehouse and inventory management.

“Columbia Nutritional Service chose ProcessPro<sup>®</sup> Premier due to our track record and proven performance in the nutraceutical industry,” says Halverson. “We’ve established a foundation for a long-term, successful relationship and business growth.”

ProcessPro<sup>®</sup> Premier is a fully integrated, real time ERP that offers a complete system from beginning sales order entry through the manufacturing and accounting process. ProcessPro<sup>®</sup> software is the leading ERP solution among food manufacturers because of its FDA compliance features including security audit trails, electronic signatures, and validation services. Any company that must adhere to FDA and cGMP regulations will be able to maintain compliance regularly as well as be prepared for a product recall.

For more information about ProcessPro<sup>®</sup> Premier and how it can meet your specific process manufacturing needs, visit [www.ProcessProERP.com](http://www.ProcessProERP.com).

###

ProcessPro<sup>®</sup> Premier is the leading mid-market ERP software solution for the process manufacturing industry. Designed specifically for manufacturers that combine batches of mixtures, ProcessPro<sup>®</sup> Premier seamlessly integrates all aspects of plant operation, from beginning order entry through manufacturing, packaging, shipping and accounting. ProcessPro<sup>®</sup> Premier is sold and supported directly by ProcessPro.
