### ProcessPro Expands Software Development Team

St. Cloud, Minn., January 24, 2011 -- ProcessPro, developers of ProcessPro<sup>®</sup> *Premier* ERP software, hired new staff member, Jason Imdieke, to join the software development team. Jason holds a Bachelor of Science degree in Computer Science from St. Cloud State University.

“I’m looking forward to working with Jason and watching his potential become realized in the professional world. Jason graduated Magna Cum Laude and was chapter president of Upsilon Pi Epsilon while attending St. Cloud State University,” says Charles Rice, ProcessPro VP of Software Development.

Jason’s computer language skills, communication strengths, and education are welcome additions to the development team, and will help ProcessPro continue its strong commitment to staying ahead of the industry needs in providing an industry-leading manufacturing ERP package.

ProcessPro<sup>®</sup> *Premier* ERP is a fully integrated, real time ERP that offers a complete system from beginning sales order entry through the manufacturing and accounting process.

For more information about ProcessPro<sup>®</sup> *Premier* and how it can meet your specific process manufacturing requirements, visit [www.ProcessProERP.com](http://www.ProcessProERP.com).

###

ProcessPro<sup>®</sup> *Premier* is the leading mid-market ERP software solution for the process manufacturing industry. Designed specifically for manufacturers that combine batches of mixtures, ProcessPro<sup>®</sup> *Premier* seamlessly integrates all aspects of plant operation, from beginning order entry through manufacturing, packaging, shipping and accounting. ProcessPro<sup>®</sup> *Premier* is available with full source code and is sold and supported directly by ProcessPro. Visit ProcessPro’s web site at [www.ProcessProERP.com](http://www.ProcessProERP.com) or call 800/457-3548 for more information.
