ProcessPro Prepares for Growth

Internal Changes Strengthen Team

St. Cloud, Minn., July 7, 2010 -- ProcessPro, developers of ProcessPro[®] Premier ERP, responds to rapid growth and new customer sales by adding to its implementation staff and strengthening its implementation and support capabilities through a customer-centric restructuring. "We are very confident that these changes will provide improved service for our clients, and a successful and rewarding career path for our employees," says Ali McGinty, ProcessPro Human Resources.

Jordan Wolfrum joins the ProcessPro team in the role of Implementation Specialist as this part of the organization grows capacity to support increased sales.

Marianne Prom has been promoted to a newly created Implementation Support Specialist role as ProcessPro continues to improve its ability to deliver more timely and under budget projects that deliver significant value to customers.

Jodi Wroblewski has been promoted to Training and Support Specialist as ProcessPro continues its focus on delivering world-class support to new and existing customers alike.

"Software companies are a direct reflection of the people that we employ, so ProcessPro will continue to add the best and brightest to our team and put our existing employees in roles that best leverage their skills and experience to provide value to our customers," says Joe Blauert, President. "Jordan, Marianne, and Jodi are great examples of what makes ProcessPro outstanding as a company."

ProcessPro[®] Premier ERP is a fully integrated, real time ERP that offers a complete system from beginning sales order entry through the manufacturing and accounting process.
