Maid-Rite Selects the Right ERP: ProcessPro[®] Premier

St. Cloud, Minn., April 30, 2011 – Maid-Rite Steak Company, Inc.[®] recently selected ProcessPro[®] *Premier* ERP software to help run its business. Maid-Rite manufactures fine quality, portion controlled raw and fully cooked meat products, including quick frozen beef, ground beef, pork, veal, and chicken products. Established in 1960, Maid-Rite has grown to manufacture over 1200 frozen portion controlled meat products in the food service and retail trade.

“Maid-Rite selected ProcessPro[®] *Premier* over other ERP systems because it was best matched to their business process,” says Nick Quercetti, ProcessPro Regional Sales Manager.

ProcessPro[®] *Premier* meets Maid-Rite’s major functional need requirements. Additionally, ProcessPro[®] *Premier* is able to provide Maid-Rite with flexible and unlimited reporting capabilities.

As part of a full lot tracing requirement, Maid-Rite is also looking to integrate full bar code scanning. In addition, Maid-Rite plans to implement ProcessPro[®] Dock Scheduling to provide assistance with scheduling and tracking of all inbound and outbound deliveries.

“The user-friendly navigation within ProcessPro[®] *Premier* was also a consideration for Maid-Rite,” continues Quercetti. “They wanted a system that everyone could use easily and efficiently.”

ProcessPro[®] *Premier* is a fully integrated, real time ERP that offers a complete system from beginning sales order entry through the manufacturing and accounting process. ProcessPro[®] software is the leading ERP solution among food manufacturers because of its FDA compliance features including security audit trails, electronic signatures, and validation services. Any company that must adhere to FDA and cGMP regulations will be able to maintain compliance regularly as well as be prepared for a product recall.

For more information about ProcessPro[®] *Premier* and how it can meet your specific process manufacturing needs, visit www.ProcessProERP.com.

###

ProcessPro[®] *Premier* is the leading mid-market ERP software solution for the process manufacturing industry. Designed specifically for manufacturers that combine batches of mixtures, ProcessPro[®] *Premier* seamlessly integrates all aspects of plant operation, from beginning order entry through manufacturing, packaging, shipping and accounting. ProcessPro[®] *Premier* is sold and supported directly by ProcessPro. Visit ProcessPro’s web site at www.ProcessProERP.com or call 800/457-3548 for more information.
