ProcessPro Staff Promotions Benefit Clients

St. Cloud, Minn., July 22, 2011 -- ProcessPro, developers of ProcessPro[®] *Premier* ERP software, is excited to announce the promotion of two outstanding employees. As part of ProcessPro's initiative to exceed client satisfaction expectations, these changes will be beneficial to current and future clients.

Rick A. Lenarz will be moving from Client Account Manager to Implementation Analyst. Rick's career growth at ProcessPro and experiences prior to coming to ProcessPro will lend nicely to his success in the Implementation Department.

"My role as Account Manager provided me the opportunity to gain a deep understanding of internal procedures, as well as keeping clients' needs and budgetary concerns at the top of the list," says Lenarz. "I am excited to utilize my relationship building skills and be involved with client implementations at a more intimate level."

Jordan C. Wolfrum will be promoted from Implementation Analyst to Implementation Consultant. Jordan has been enthusiastic in her role as Implementation Analyst, and will make the transition to consultant smoothly.

"I am very excited to be moving into a consultant position," says Wolfrum. "Our clients deserve the best, and with a larger consultant staff we can more easily provide the standard of excellence on which our company has built its reputation."

ProcessPro[®] *Premier* ERP is a fully integrated, real time ERP for the process manufacturing industry that offers a complete system from beginning sales order entry through the manufacturing and accounting process.
